Dear Parents and CHS staff

Our IB students are kicking off our school's recycling campaign by organizing the collection of tin cans. They will place special bins next to the regular rubbish bins around the school. Next to reception under the covered car parking spot there will be a large cage where children can bring their cans from home. Please place them in a sealed bag for the child's safety – we don't want Band-Aids to cover cuts!

The proceeds from this collection will go towards the IB students Prom and Graduation. Please support their endeavors; at the same time you will be saving our environment and teaching the future generation habits that can change our planet's future.

Diana Afranji
School Principal
